

Trading with and setting up in the UK:

A guide to getting started

When: 10.00-11.00am, Thursday 11 November

Platform: Zoom (registration required)

Establishing a foreign company in the UK can provide businesses with huge opportunities. With a stable economic system and diverse consumer market, it has one of the highest wealth per capita in the World. However, it also comes with often complex tax and business regulations, so the right preparation is essential, especially following Brexit. In this webinar with UK tax and accounting specialists Carpenter Box, they will outline the key steps you need to take when setting up and running your business in the UK.

Topics include:

- Benefits of doing business in the UK
- Options for business structures and their benefits
- Corporate tax considerations and tax reliefs available
- Post Brexit considerations
-
